

EDITH CAVELL

by Annika (10), Bishop Creighton Academy

Leading me through the night, giving me her light,

She's gonna get us outta here tonight.

I'm not prepared, but she says 'don't be scared!'

Edith lead me out of here!

She's got a kind heart full of love, she's like a dove.

She's helping us outta here,

I might just disappear.

We might just make it home again!

Ridding us of our fears, cleaning up our tears.

She gonna help us all as morning nears.

Under the moon, Edith's healing our wounds.

Edith get us out of here!

She's got a kind heart full of love, she's like a dove.

She's helping us outta here,

I might just disappear.

We might just make it home again!

We might just make it home again!
